The administration is supposed to have been anxious to satisfy the independent Republicans and their to have been to please this element pro-bably with the idea that its continued co-operation is essential to Democratic success. Is it not to be feared that this has been earried too far and may seriously dissatisfy the Democracy? What has been President Cleveland's herds. reward for keeping the army of Republicans in office? The jeering cry of the Republicans' organ that be had found no rascals to turn out. What has followed the attempt to prove that the Democracy is above spoils grabbing and wishes to feel its way gradually to the complete reform of the government. wishes to feel its way gradually to the complete reform of the government. The patronizing approval of the Republican political orators, who declare that President Cleveland's administration is a very good one, because it is carried on by Republican officers, on Republican methods. Surely it is not surprising that a policy which clicits such comments from Republicans, should be recorded as the results of the ments from Republicans, should be regfetfully criticised by some Democrats.

Died from Too Much Whisky.

BLAIRSVILLE, Ga., April 17 .- Edward T. Smith has been indicted by the Grand Jury of Union county for murder. Several weeks ago he brought home a jugful of whisky and invited his eight-year-old son to share it with him. The little boy drank over half a gallon of whisky, from which he died in horrible agony before daylight. For this crime the people propose to punish the father as a murderer.
